However, it is interesting to question the effectiveness of such a directive and ask how deepening security measures and regulating their use can be achieved at the same time. Even the new Unit cannot reach out to every platform, which can be created in a matter of minutes, to take down certain material—not to a significant degree, at. Terrorism is mostly based on ideas, and ideas cannot be fought with weapons, guns, or tight security borders.

Globalisation has promoted the connections among sovereign states in their. As encouraging as this idea may seem, some may find it slightly idealistic. Although it is always horrific and deeply saddening to witness the killings of civilians in a terror attack, we must ask where the line is between the reporting and analysis of such an event and providing terrorists what they seek: publicity.

Such channels will allow discussion and perhaps personal counselling meetings. A bottom-up approach could be quite beneficial. Ensuring that agencies exchange information effectively cannot be achieved

solely by agreeing general principles such as the principles of equivalent access and availability.
