Black students who completed the program were also more likely than their traditional high school peers to enroll in a four-year college. Teachers who are not adequately prepared to teach and who are not paid professionally may decide to leave the profession. Approximately 14 million students across the country attend schools that are in need of extensive repairs or complete building replacement, and nearly two-thirds of American schools have at least one building feature that needs to be replaced or needs extensive repairs.

For states and localities where universal access is unrealistic, an expansion of federal funding streams and incentivize states to target federal funding toward communities that are unable to provide these options through other means. To better serve students, mental health counseling and academic guidance roles should be separated, and all students should have access to both types of supports.
