When a baby is constantly held, they may get lazy in a sense where they won't feel a desire to walk – they know their mom will do it for. Uncle Henry Hall Sidney Miller

Earlywalkersusuallyhaveprettytenaciouspersonalitiesandwanttowork. Their diaper and little tush will work as built-in bumpers for any falls, and they will likely forget their trips and tumbles before you. Just like adults, toddlers can get bad breath, or halitosis.

Whenyourtoddlerhasacold,congestionisacommonproblem.I'm always stressing my baby to walk on her. Parents may want to help their child develop these gross motor skills – they certainly take pride in them, even as they spell the end of a certain kind of easy, snuggle-based parenting – but according to Fischmann, the most parents can do is supervise and baby proof for the sake of safety.
