I painted and fired in a kiln 2D de Bruijn 4 X 4 arrays window length four on two clear glass panels, with spinning red and yellow particles in the corresponding 2 X 2 windows - separated by the space between the panels. Imagery Residency transdisciplinary gatherings are conducted by activist and curator Macu Moranas a natural development of her trajectory of projects and researches in the fields of art, science and

spirituality. To manage the creative process.
Foraging for mushrooms has become a meditative practice for me. An interesting
My background and lifelong interest in agriculture, which I
view as an extension of ecology, reflects this impulse.
Conceiving of my avian neighbours as a collective
canary-in-the-coalmine for the environment, I thought I might
begin to be able to discern patterns that portend something of
our shared future. What intrigued me to become a bird artist? From a
very observational training in painting to a less graphic and
more candid painting process has evolved over the last 5
years. The visual infusion we received when we moved onto this
property has been translated into the many images you see in
this book.
